

*"Son of man, I have made you a watchman to the house of Israel: therefore hear the word at my mouth, and give them warning from me." (Ezekiel 3:17)*

## STRONG DELUSION

### JUDGMENT

My previous issue of Straight Talk (March-April) was on the subject of God's judgment. I published it just before the fake COVID-19 crisis rolled out, and the shutdown began.

I suspect that this is another judgment from God. Consider the strange nature of COVID-19 propaganda. Everyone knows about it, but not one person in a million understands what is actually happening. They don't understand it, but they believe it. Plus, the few who do look at it intelligently, nonetheless, must deal with it since most the people around them believe it must all be true. Every home is affected in some way.

In many ways it reminds me of the plagues God sent upon Egypt. The 10th plague took the life of all the firstborn in each home that did not have the lamb's blood on the doorposts. The Children of Israel were saved because Moses warned them. Likewise, Americans have been given many warnings - and just like the Egyptians, most Americans continue to ignore God.

The Egyptian plagues were judgments that separated God's people from Pharaoh's people. Today's planned virus scare might be a similar purge separating the children of God from the children of the Beast System.

### NOTHING NEW

It's not as though this COVID-19 delusion is the first time Americans have received a clue/warning from God. Those who have eyes to see and ears to hear take God's warnings seriously. God gives us opportunities to open our eyes and notice what is happening around us. In the last century He's given us big clues. We've seen planned wars, depressions and economic bubbles, outrageous fabricated emergencies like the "Y2K bug," the 9-11 contrived demolition of the New York World Trade Towers, the creation of Homeland Security and the Patriot Act, military invasion of Iraq, Syria, Iran, Libya, along with a new cold war with Russia and China, the US fomenting the separation of Ukraine from Russia, the building of scores of military

bases in eastern Europe by the US and NATO, the creation of Big Pharma in cooperation with the WHO and CDC (and Bill Gates), ... I could go on.

Yeah, we've seen A LOT OF STUFF instigated by the US Government. It has been happening right before our eyes. Some of us have noticed. But frankly, the large majority of people seem to have no interest - they are too busy playing with the toys of their captivity. In the last 20 years or so, world-changing events and calculated deceptions have been coming at us fast. Most folks think that things are humming along OK, but in fact people are being distracted and blinded to what is really going on.

The US Government has been waging an undeclared war against most of the world, and at the same time it has been practicing mind control on its own citizens - lies and hypnotism. It is war to conquer and control our minds.

The US Government has been at war almost constantly since the Beast System crossed the Atlantic in the 1600s to plant itself on our East Coast. Today that system is revealing itself even to people who haven't seemed to care.

The US Government is at war, first and foremost, with Americans - their health and minds. We have been lied to and herded into clinics to get drugs and vaccinations that damage us. Government funds Big Pharma to make drugs and vaccines. Possibly the biggest and most insidious vaccination scandal is the war on innocent children. Moses warned Israel against sacrificing their newborns to the fires of Molech (Lev. 18:21). The pharmaceutical industry (WHO, CDC, and Bill Gates), teams up with government to sacrifice today's children, starting at birth, to be given 50 or more shots to wreck their health - killing many of them.

And still Americans voluntarily give their seed to Molech by taking their children in for their shots without so much as a question about safety.

Also, people are obediently putting themselves under house arrest, voluntarily, because they trust Bill Gates, Anthony Fauci, and TV news - more than they trust God. They've been scared by lies about a fake pandemic. What are they thinking? How did Americans fall to this sorry state? They are controlled by rumor mongers and liars. They flee from shadows (Prov. 28:1). Meanwhile Bill Gates and

his fellow criminals want to vaccinate the whole world and are devising how to put digital tatoos on our hands to verify that we've been vaccinated and can be allowed to buy and sell, and to move about in public.

Why do Americans accept this? They even welcome it!

Cameras are being installed everywhere on city streets to surveil and track everyone. Now the powers-that-be can keep close track of us like cattle.

An exaggeration you say? Not hardly. It has been waved in our faces for years.

So, what has happened to Americans? How did they lose their senses? How did they lose their pioneer spirit of independence? What turned them into spineless and helpless weaklings? Now they just follow orders. That's all they are good at. They can't tell the difference between lies or truths. And if they accidentally stumble across a truth they look the other way and pretend nothing has happened.

Americans have been "educated" to follow the new philosophy of Postmodernism which teaches that truth is subject to individual interpretation. In other words, "truth" can vary depending upon personal preference. My "truth" is not your "truth." A parent or a teacher has no right to push his truth off on a child that has his own "truth." Let the children decide for themselves what is true - including what gender they prefer to be. There is no God, and thus no "right" or "wrong." I'm OK, your OK regardless. Truth is a moving target that cannot be pinned down. So the pursuit of truth has been abandoned, causing American education to regress back into the dark ages, robbing children of their minds.

The upshot of all this is that Americans have lost the ability to use logic and reason. Without God's law to define right from wrong, people are like boats without rudders.

This is why Americans can be driven by fear generated by CIA-controlled news broadcasts. Two hundred times more deaths are caused by abortion each year than by COVID-19 claims. Why hasn't America been shut down due to abortions? Fifteen times more deaths are caused by alcohol and drugs, and three times more deaths are caused by seasonal flu. Why haven't these plagues closed down America?

What manner of people are so quick to roll over and obediently submit to an imaginary enemy? Why are people so easily tricked and manipulated - like cattle herded into a pen? How can they believe lying politicians and CIA-controlled newsrooms, but won't believe God? Why are they impressed with lying politicians and reporters who read scripts handed to them by their controllers?

Americans need to relearn how to inquire with God. But how can they do that if they don't believe in Him?

*6. But without faith it is impossible to please Him: for to be near to God one must believe that He exists, and that He is a rewarder of those earnestly seeking Him.*

Hebrews 11:6

Americans today find themselves in a sad situation. Amorality and faithlessness have crippled the hearts and minds of the people. Since the end of the 1800s the devils

and con men in government have used mass media (News Papers, Radio, and TV). This has brought politicians, "entertainers," unprincipled educators, and idolatrous religious leaders into America's living rooms.

Americans have lost their moorings. They are adrift in a sea of growing ignorance and decadence, while at the same time believing that we are growing more advanced - like Rome toward the end of its empire. The truth is, the average American today knows more about Hollywood than about history, health, law, ethics, or the Bible.

In other words, Americans today know very little about basic truths. They trust liars. They think it is wise to believe whatever they prefer. For instance they believe it is wise to let children decide for themselves what gender they are. Children are taught that their opinions are more important than facts.

The result is that today's generation is digressing back into a dark age in which people are misled by hucksters and tricked by silly ideas.

In the last century Americans have been led to believe huge deceptions backed by absurd lies from government, TV, churches, and schools. Anyone who has lived through the last few decades has witnessed major deceptions, needless wars, and fake news on TV. We see the public's wholesale compliance as they follow politicians empowered by expanding surveillance technology. Anyone who doesn't at least question these things ... well, I'm afraid they may be beyond help. They live in an alternate world built by politicians and the government-controlled mainstream press.

Anyone today who doesn't suspect that there must be something terribly wrong with the system - that something very basic and intrinsic is missing in this land ... their minds are probably defective from years of neglect. Their brains have atrophied and are no longer vital. They've lost the faculty of critical thought. They are simply not interested in reasonable inquiry. They are not drawn to truth. As such they are probably doomed to live out their lives never knowing there is a problem, never waking up, and therefore never seeking or finding answers.

That's not to say that God doesn't reach out to them. But people who reject Him can refuse to hear when He speaks to them. It is not His way to force people to do what is right. So, sadly, those people who have no interest in truth will probably never feel a need to repent, and they'll never learn to function correctly. They simply cannot see the problem, and consequently they have no desire to seek a remedy.

But how can this happen? How can a people become so blind and helpless when they came from pioneers who were capable and intelligent? Our ancestors were sturdy folks who faced the American wilderness and were able to carve out good lives here. Most of them believed in the God of Israel. It was the basis of their beliefs and faith. It was what made them able to do what they did.

What has changed? How could the current generation who are offspring of the pioneers of early America, become so weak and helpless? Clearly it didn't happen overnight. The creeping loss of freedom, and of loss of sound minds, has been slowly infecting Americans for a long time.

## WHAT HAS HAPPENED TO US?

We are descended from pioneer stock. Our forefathers were capable. They were unafraid and resourceful. Their lives were guided by reason and faith in God's laws. They sought freedom, and they respected others' freedom. They were raised to know that God is above men.

That, in a nutshell, explains how they tackled and tamed the wilderness. They faced hard times as a natural part of life, and they learned how to survive. As long as this perspective was intact, life was good.

This explains what has happened to Americans today, and why their lives are diminished. When Americans began trusting devils (politicians and bankers - i.e. man-gods) they abandoned the simple truths and critical thinking that the pioneers knew. That was Americans' downfall.

Today a clown can go on TV and announce that everyone must stay in their house and shut down their business due to an imaginary pandemic - and the people put on their face masks and obey.

## THE FAITH OF OUR FATHERS

We are the offspring of Abraham, Isaac, and Jacob. Abraham believed God and put his trust in Him, and it was accounted to him for righteousness (Rom. 4:9, 16-22). That was the formula by which God blessed him and his offspring. Faith was the key - faith in God, not in man-gods. Paul called Abraham the father of the faithful. He said that Abraham believed that God gives life to the dead, and that He calls things into existence (i.e., giving life where there was none). God caused Abraham and Sarah to bring forth new life (baby Isaac) when they were beyond the age of being able to conceive a child. God gave life to Abraham and his family. That "life" was the engine of their faith and their accomplishments. They were the models that Israelites (we) were supposed to emulate.

By faith those men, and many who followed them, accomplished great things. Americans who looked to them as examples made good lives for themselves because they knew the meaning of freedom. That was a great thing.

But when Americans adopted the ideas of the Beast System, the faith of Abraham was systematically replaced by faith in the Beast System. The faith of Abraham, along with the faith of Jesus, was lost. The pioneering spirit and genius that empowered our ancestors was lost.

These are the men whose example we should emulate. They were the fathers of the faithful. God took those men of faith and led them away from the cultures of idols and man-gods. God led them to lands where they and their families were free to worship Him. Their faith in God enabled them to raise families that were blessed. Their children grew up with faith in God, and they did well as long as they were true to that faith.

Abraham loved and followed God. God spoke to Him and told him to take his family and leave their home among the idolators in Ur of the Chaldees. Ur was corrupt and not a proper place to raise a family. God told Abraham to leave that land and its people, and go to another land where He

would guide him. And God blessed him.

Ur had man-gods. It can happen to any land when the people forget and/or reject Yahweh.

Abraham's faith was inherited by his son Isaac. Isaac was the son of promise. Isaac's son, Jacob, also inherited the faith. The quality that made them different/separate from the people around them - including some of their relatives - was that they trusted in God. They and their offspring comprised a growing family of the faithful. Those who trusted Yahweh rather than men were blessed because they didn't follow the man-gods of the Beast System.

God blessed and multiplied those who believed in Him. We are descended from this family. But do we have the faith of Abraham? Do we trust God, and not man-gods?

To the extent that we and our families keep the faith of Abraham, we are blessed and multiplied. But to the extent that we forget or reject that faith, we are cursed, and we do not retain God's blessings and protections. It's very simple, really. Ignoring God has consequences.

This is precisely the process we see being worked out today in America. The large majority of people today are not living the faith of Abraham. They are not trusting in the God of Abraham, Isaac and Jacob. Rather, they trust in the Beast System and the churches that teach false christs.

Today Americans believe in man-gods - politicians called "lawmakers" who have usurped the throne of God. They are the Beast System, otherwise known as "government." They claim to be the unquestioned all-knowing arbiters of truth and law. They are the puppeteers, and citizens are the puppets. They pull the strings, and the people dance. And Americans are taught that this arrangement is called "liberty."

Moses warned the Israelites about this:

43. *The stranger that is among you shall get up above you very high; and you shall come down very low.*
44. *He shall lend to you, and you shall not lend to him: he shall be the head, and you shall be the tail.*
45. *Moreover all these curses shall come upon you, and shall pursue you, and overtake you, till you be destroyed; because you hearkened not to the voice of Yahweh your God, to keep his commandments and his statutes which he commanded you:*

Deut. 28:43-45

The God of Abraham has been forgotten in America. The people now place their faith in man-gods; false prophets who teach the doctrines of men; false powers, and false lawmakers - otherwise known as constitutional government.

This applies to the nations of the world too. But for this article I'm focusing upon America in this day and time. God calls his people to be separate - to not trust in the Beast System. He wants us to be separate from it like the Children of Israel were delivered from Egypt. It means we must be "different."

One visionary explained it this way:

*"The real hopeless victims of mental illness are to be*

*found among those who appear to be most normal ... because they are so well adjusted to our mode of existence, ... they do not even struggle or suffer .... They are normal not in what may be called the absolute sense of the word; they are normal only in relation to a profoundly abnormal society. Their perfect adjustment to that abnormal society is a measure of their mental sickness. These millions of abnormally normal people, live without fuss in a society to which, if they were truly normal, they would not be adjusted."*

Aldous Huxley

## BIG BROTHER

What we see happening to us today was described by George Orwell (Eric Blair) in his prophetic book **1984**. He wrote the book in 1949, looking 35 years ahead. His vision was pretty accurate.

He described a future where the government would surveil everyone and control their minds by propaganda. He saw a future where all history and current news would be controlled and edited to say only what the government wanted. This would be done via a device called "a telescreen" mounted in every home and in public areas where people frequented.

Orwell's "telescreen" not only broadcasted government propaganda, it was also a camera that looked into everyone's home. The government referred to itself as "Big Brother," and Goldstein (the voice of Big Brother) constantly reinforced the teachings of "the party." Big Brother monitored the actions of the citizens while it was keeping them scared by announcing invented enemies, wars, and terrorists.

Now we see this today in America. The first TVs came into existence just after Orwell's book was published. The process started about 1950. Everyone wanted a TV. Soon, every home had one

Then about 40 years later the Internet came on the scene and everyone wanted it. Now everyone could surf the Worldwide Web. Today people have little hand-held "telescreens" in their pockets that keep everyone connected and surveilled. Plus government (Big Brother) is installing cameras on the streets to watch us.

Orwell's dystopian vision has become a reality. Big Brother is watching us. And what's worse, today's system of total surveillance was not forced on us by the government as depicted in Orwell's book. No, we've eagerly asked for it - DEMANDED IT - and paid out of our pockets for the equipment. We (especially our young folks) can't seem to get enough of it - we simply can't take our eyes off our "telescreens." Through social media, like Facebook, we happily confess every personal detail of our lives to Big Brother. WE LOVE IT! Who needs privacy?

## AGAIN, HOW DID THIS HAPPEN?

How and why are we doing this to ourselves? What are we thinking? Why can't people see what is happening to them? How did we get brainwashed into thinking that privacy isn't important?

China's protocol seems to be America's model. They have more smart phones than any nation, plus millions of cameras on their streets with face recognition ability. They are watching their citizens. Plus they are enacting a "**social credit system**" where everyone is surveilled and graded as to his level of compliance with social rules. If Big Brother sees them not following the rules, they are punished by removing some of their public privileges - like losing their permission to do business, to have a bank account, to use public transportation, or be accepted in schools. American cities, too, are building their own surveillance systems and a "social credit" system so they can monitor everyone's activities, movements, and contacts. This will allow them to evaluate everything you do, and penalize you or reward you based on how well you follow their social credit rules.

We are being readied today by a trial run of something called "COVID-19." They're telling everyone to put themselves under house arrest, and close businesses. It is working well. The world is falling in line, and is slipping into a depression that could be on the scale of the Great Depression of the 30s. All by way of mind control through fake news. We don't know how long this test will continue.

## SMOKE IN THE TEMPLE

In Revelation 15 & 16 we read about seven judgments (plagues) that represented the wrath of God brought upon worshippers of the Beast System. The judgments (God's wrath) are due to the people having ignored and rejected Him, his law, and his Son.

"The temple of God" is where God dwells (i.e., in his people) (1 Cor. 3:16, Eph. 2:18-22; 1 Pet. 2:4-5). Out of this "temple" God directs seven messengers to announce seven judgments upon the people. The judgments come, and **the temple is "filled with smoke"** (Rev. 15:8). This represents a blocking of sight for those who won't use their eyes. Years of ignoring God has disabled their minds. They cannot perceive the truths inside the "temple" (in God's ecclesia).

The nonbelievers are unable to see or hear truth due to their eyes and ears being unused for too many years. Thus, as judgments/plagues fall upon them, they are unprepared - like the five virgins of Matt. 25. Their eyes and ears don't work (Mtt. 13:15). Their senses are dull from years of ignoring God. Read Isaiah 29:9-14.

Today, most Americans worship man-gods. Even when they protest, they appeal to their captors instead of to God.

People today are controlled by lies and propaganda because Americans have trusted government and the media so long they've lost their ability to detect lies. They've lost their common sense. It is too late for them. The Beast System controls their minds. Government is their god.

If you understand this you will look to Christ and to God's Word, not to government or to CIA-controlled media.

For those with eyes to see it is obvious that people are being fed outlandish lies. But self-imposed blindness is, in itself, a natural judgment upon those who worship the Beast System. I pray this judgment from God may cause more people to open their eyes.

*Ben Williams*
